PUBLIC WORKSHOP TO DISCUSS ENHANCED VAPOR RECOVERY FOR ABOVEGROUND GASOLINE STORAGE TANKS

Dear Sir or Madam:

The Air Resources Board (ARB) is developing Enhanced Vapor Recovery (EVR) regulations for gasoline dispensing facilities using aboveground storage tanks (AST). EVR will provide additional emission reductions by increasing the stringency of performance standards and specifications for AST vapor recovery systems. This workshop will provide an update on ARB's efforts towards adopting AST EVR standards. The ARB invites your participation. The proposed AST EVR regulations are scheduled to be considered by the Air Resources Board in spring of 2007. The workshop details are as follows.

DATE: Wednesday, September 27, 2006
TIME: 9:00 a.m. to 12:00 p.m.
LOCATION: California Air Resources Board
Monitoring & Laboratory Division
1927 13th Street, 1st Floor Conference Room
Sacramento, CA 95814

Arrangements will be made to provide teleconferencing at this workshop. Teleconferencing information and workshop presentation material will be available electronically prior to the workshop at the following website address: www.arb.ca.gov/vapor/ast/ast.htm.

This meeting location is accessible to persons with disabilities. If you have special accommodation or language needs, please contact Elizabeth Mongar at (916) 327-0900 as soon as possible. TTY/TDD/Speech-to-Speech users may dial 7-1-1 for the California Relay Service.

The workshop location is within three blocks of light rail. The enclosed map shows the location of a nearby vehicle parking facility. Please note street parking is generally limited to one-hour and is strictly enforced.

*The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption.
For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.*
